

**New Solar  
Connectors  
and Cables**

# **RADEL**

Providing Solutions

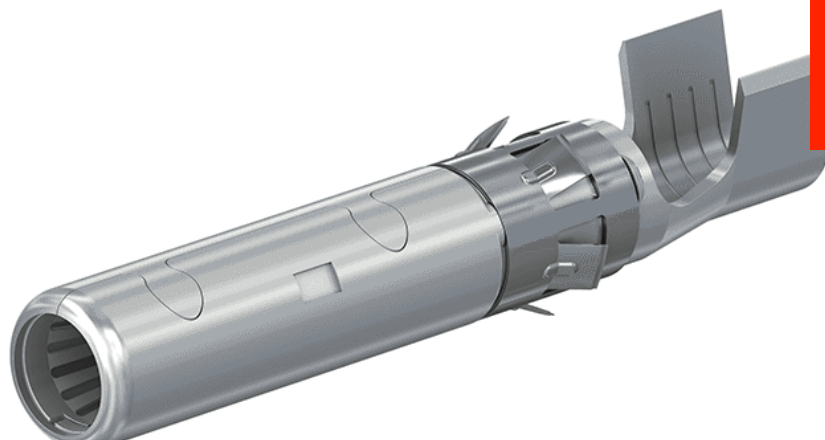

**The widest product  
selection from the  
industry's leading  
manufacturer!**

Standard-compliant and  
compatible cable and  
connector solutions!

---

**Express-deliveries!  
Fast Technical Support!**

**STÄUBLI**

# PRODUCT PRESENTATION

The Solar industry has been on the rise in recent years, and industry practices and selections have kept up barely with the development.

However, quality assurance is important in order for the systems to last and to avoid expensive and, at worst, fatal consequences, both financially and in terms of life risks.

Recently, supervisory authorities have paid a lot of attention to the shortcomings of solar power systems, of which connectors and cables have been the focus. Up to 90% of the objects are installed incompletely in these respects.

Because of this, we have entered into cooperation with the Swiss Stäubli Electrical Connectors AG to offer you original, patented and high-quality solar power connectors and tools, including cables, for your projects. This is the only original branded MC4 DC connector for PV systems and no other tool or connector is suitable for use or installation with it.

Thanks to our global supply chain, we can guarantee the quality of technical support and delivery efficiency for you, regardless of the project!

### Why Radel?

- Wide contact network and selection
- Engineer level customer support. No intermediaries.
- Customer-oriented and customizable ordering solutions regardless of time or place.
- Fast and efficient customer support.
- Customizable purchases according to the customer's volume and technical requirements.
- Customizable project collaborations.
- Competitive prices.

### Why Stäubli?

- Solar electric connectors since 1996
- Patented MULTILAM connection guarantees electrical durability.
- More than 50% of the world's photovoltaic systems are connected with Stäubli connectors. Suitable for harsh conditions.
- Wide selection, customizable solutions
- Reliable solution, no unnecessary losses from repair costs, the smallest expense item in the system.

### Important:

Remember to only use connectors from the same manufacturer. The Stäubli MC4 and MC4 EVO2 series are compatible with each other. The voltage resistance goes according to MC4 in mixed connection.

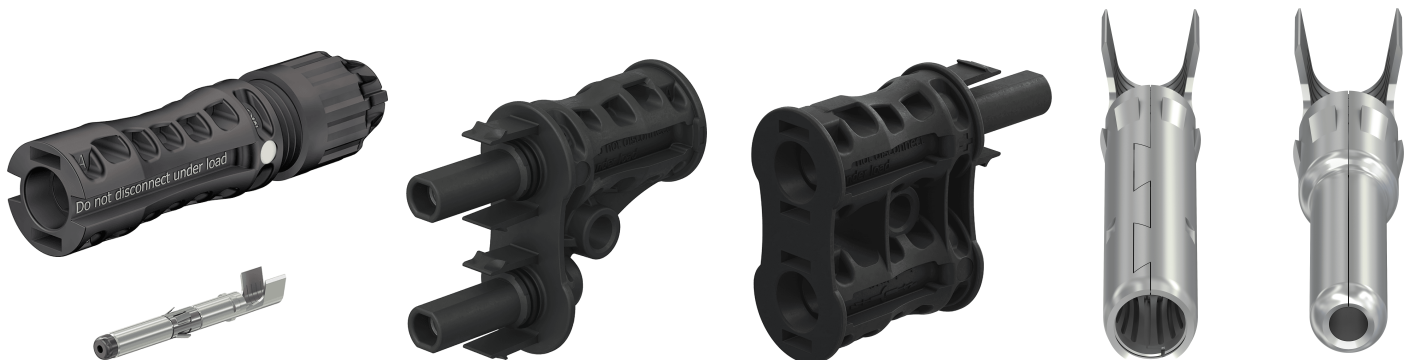

Also, remember to use only tools manufactured by Stäubli for crimping, Stäubli does not give a guarantee for other tools and their joints, even if they say MC4 compatible! Standardize your processes!

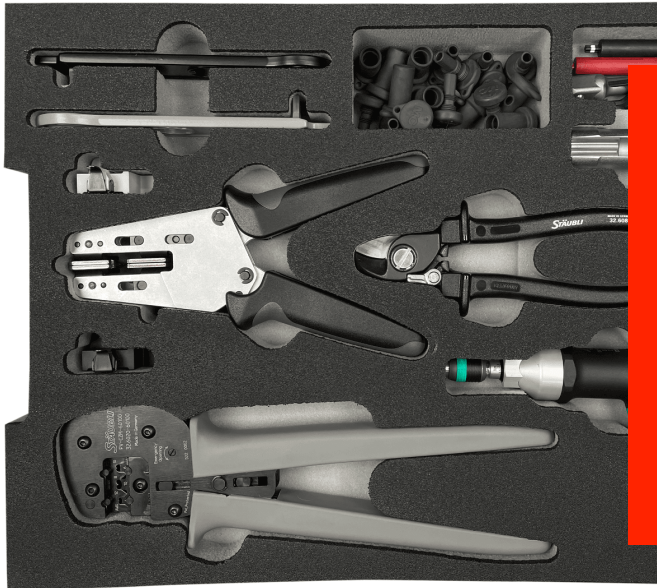

## Connectors

### Original MC4 and MC4 EVO2

- 1000VDC (MC4)
- 1500VDC (MC4-EVO2)
- Branch connectors, e.g. for parallel connection
- Connectors for the manufacturing of panels and products
- All spare parts and accessories

## Tools and Accessories

- Installation tools
- Cover hoods
- Test plugs
- Crimping tools
- Cutters
- Tightening tools

## Cable Solutions

- DC-Cables 2.5mm<sup>2</sup>-10mm<sup>2</sup>  
(also US sizes)
- Y-branched cables
- Inline-fuse cables
- Measurement adapters
- Pre-installed cables
- Customized solutions

# Product List

Model	Product Description	Category	Packaging
PV-KBT4/2,5I-UR	Female cable coupler MC4	Connectors	loose
PV-KBT4/2,5I-UR	Female cable coupler MC4	Connectors	reel
PV-KST4/2,5I-UR	Male cable coupler MC4	Connectors	loose
PV-KST4/2,5I-UR	Male cable coupler MC4	Connectors	reel
